Why DJs should use the headphones even if they are really shitty:

How can you possibly hear when the song you're playing before your speak completely ends? If you don't use the headphones, your mixes sound terrible, so USE THEM. Hopefully we will get new ones soon and then you will have NO EXCUSE!

Patty M.

Why not buy new ones?

↑ yes, I agree it would be money well spent!! -Jill

The Abbey Road Album by the Beatles is still missing. Please be courteous enough to return it.

Thanks

Mondira.

Hi! I ♡ radio, but I'm a little bored w/ doing it alone. Want to share a show? This is my second semester on the air. I've done 70's music + progressive rock. I'll do either next semester cuz I really like both!

How can you cue up cassettes on the Tear while a record is on the air? If that's not possible could we please get the little box in the news room fixed so that we can cue up cassettes on that. Thanx.

OPEN A WINDOW!!

I WISH IT WASN'T SO HOT IN THE STATION. 100000!!!

ERIKA. Me too, Erika!

SHOBA & AYESHA-

THIS IS HOW YOU CUE UP. JUST PUT POT 4 (labeled TEAC) in cue. Put the tape in and figure out where you want to start the music. It will come over the cue speaker (just like with the turntables). Keep the light on red. Put tape on pause & play, put pot up to about 6 and hit the green light light. Until you take off the pause button nothing will go over the air.

ERIKA

How is Lord Byron Today?

PLEASE READ:

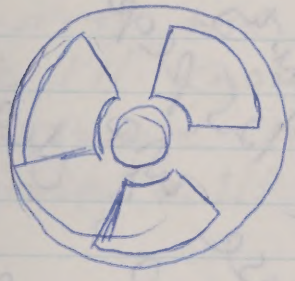
I thought that alcoholic beers were not allowed in the station. If you break the rules, at least have the decency to finish / dump what's left, and get rid of the evidence. Moose-heads half-filled are not cool when they are under the board.

Tony removed the alcohol, but please listen to Sherry! ALCOHOL IS NOT ALLOWED IN ~~THE~~ STATION!

Alicia ☺/

Oh, I love local bands! Can I have a show, Erika? If not, can I do a "music of the spheres/space age/Futuristic music" show? Or do you think that we don't have resources?

Alicia



Vestry men were great - too bad nobody came. Matthew Davis is such a tortured soul. I've known him since freshman year. Cool Dude.

- Ellen

Tortured soul? Excuse Me? Are we talking the same ~~Matt~~ C. Davis?

Hey - guess what - The bitch has something nice to say. I found the new Sprung album. THANKS. This makes me happy. - Now lets make sure things stay in the station FILED CORRECTLY so all the other DJ's can be happy, too! ☺

To All:

Have a great Turkey-day break. We'll be off the Air Tues. at noon and we'll return Mon. morning at 6am. Congrats to all of the new DJs. (Congratulations) Hopefully w/ the one we will be joining us, we will not have any open slots.

And the concert was fun - we had over 125 people show up. Thanks to those who set up & clean up sat. nite. We helped see DJs (tickets) - I love enthusiastic radio people!!

Melissa

I see someone else hates abbrs.

signed, an anonymous Word-shorteners hater → ~~abbrs~~

- No it wasn't that great - almost nobody showed (but the music was good)

Attention Rock djs:

The reason the new rock section looks so empty is because I cleaned it out to make room for all the great stuff coming in over Thanksgiving and to make the new new stuff more visible. If you can't find something that used to be in the new section, it's probably in the LIMBO section, which is divided by letter but not alphabetized within each letter. I can't do it all myself, so if you have spare time during your show, feel free to alphabetize a letter or two (I know it's a drag) and write me a note in the comment book so I'll know who's been helping out. Brownie points help when scheduling time rolls around again.

Thanks,

Patty MD

Here's some fun + useless info for cocktail parties: The title track for "Less than Zero" is performed by the Lodi, N.J. superstar + ex-leader of the Misfits Glenn Danzig. This guy used to be a hardcore icon, now turned "death rocker" + has hooked up w/ Def Jam + Rick Rubin. Will wonders never cease?

Can we invest in a new pair of headphones? Are they that expensive? If we're supposed to use them on our shows, it would be nice if they didn't hurt my left ear – what's the scoop??

Yes! the headphones hang around my neck – & unfortunately my ears aren't that low. -br

Yes, I agree – the mixes are better if you can listen to what you're doing!

Jenn-

I would love a less-than-3-hour show, believe me! I did not plan this! Hopefully, we will have more Jazz DJ's next semester and will be able to split the slots! I'd really like to split them in 1/2 - i.e. two 1½-hr. segments/day. Let me tell you about 3-hr segments at the end of the semester - I have the GRE's a week from Sat. and have to spend the entire pm before here when I really should be studying. Instead, I'll be having a nervous breakdown.

~~J~~

JAZZ DJ's -

WHERE is the Ladysmith Black Mambazo album? I can't find it (I've looked, too, Jenn) - it should be in the "New" section. This is very upsetting - Please make sure to file things properly, folks - I've seen a few albums out of order.

On a lighter note, I've been looking at all your needle drops (no, I'm not filling out evaluations!), and I'm glad to see everyone is playing a nice combination of old and new, well-known and not-so-well-known. Keep up the good work!

And speaking of work, in cheer up! The semester's almost over!

Hey, Jenn - Guess what I just found?! Filed away under "L"! Will everyone please try not to file new albums in the "old" section? Just for future reference, what would you file Ladysmith Black Mambazo under? L?

I would like to protest those fascistic corporate sponsored PSA's like "Drug Abuse: It Affects ALL Americans." It is extremely biased and more important, its not public service - its propaganda. Fuckin' gnarly rad, man. We almost have a few new hardcore records. Check out the 7" & too. It's crucial + it rules. Get the edge

MERRY Holidays, Hah.

Hardcore

Hey Man did you know that there's something wrong with the phone?!

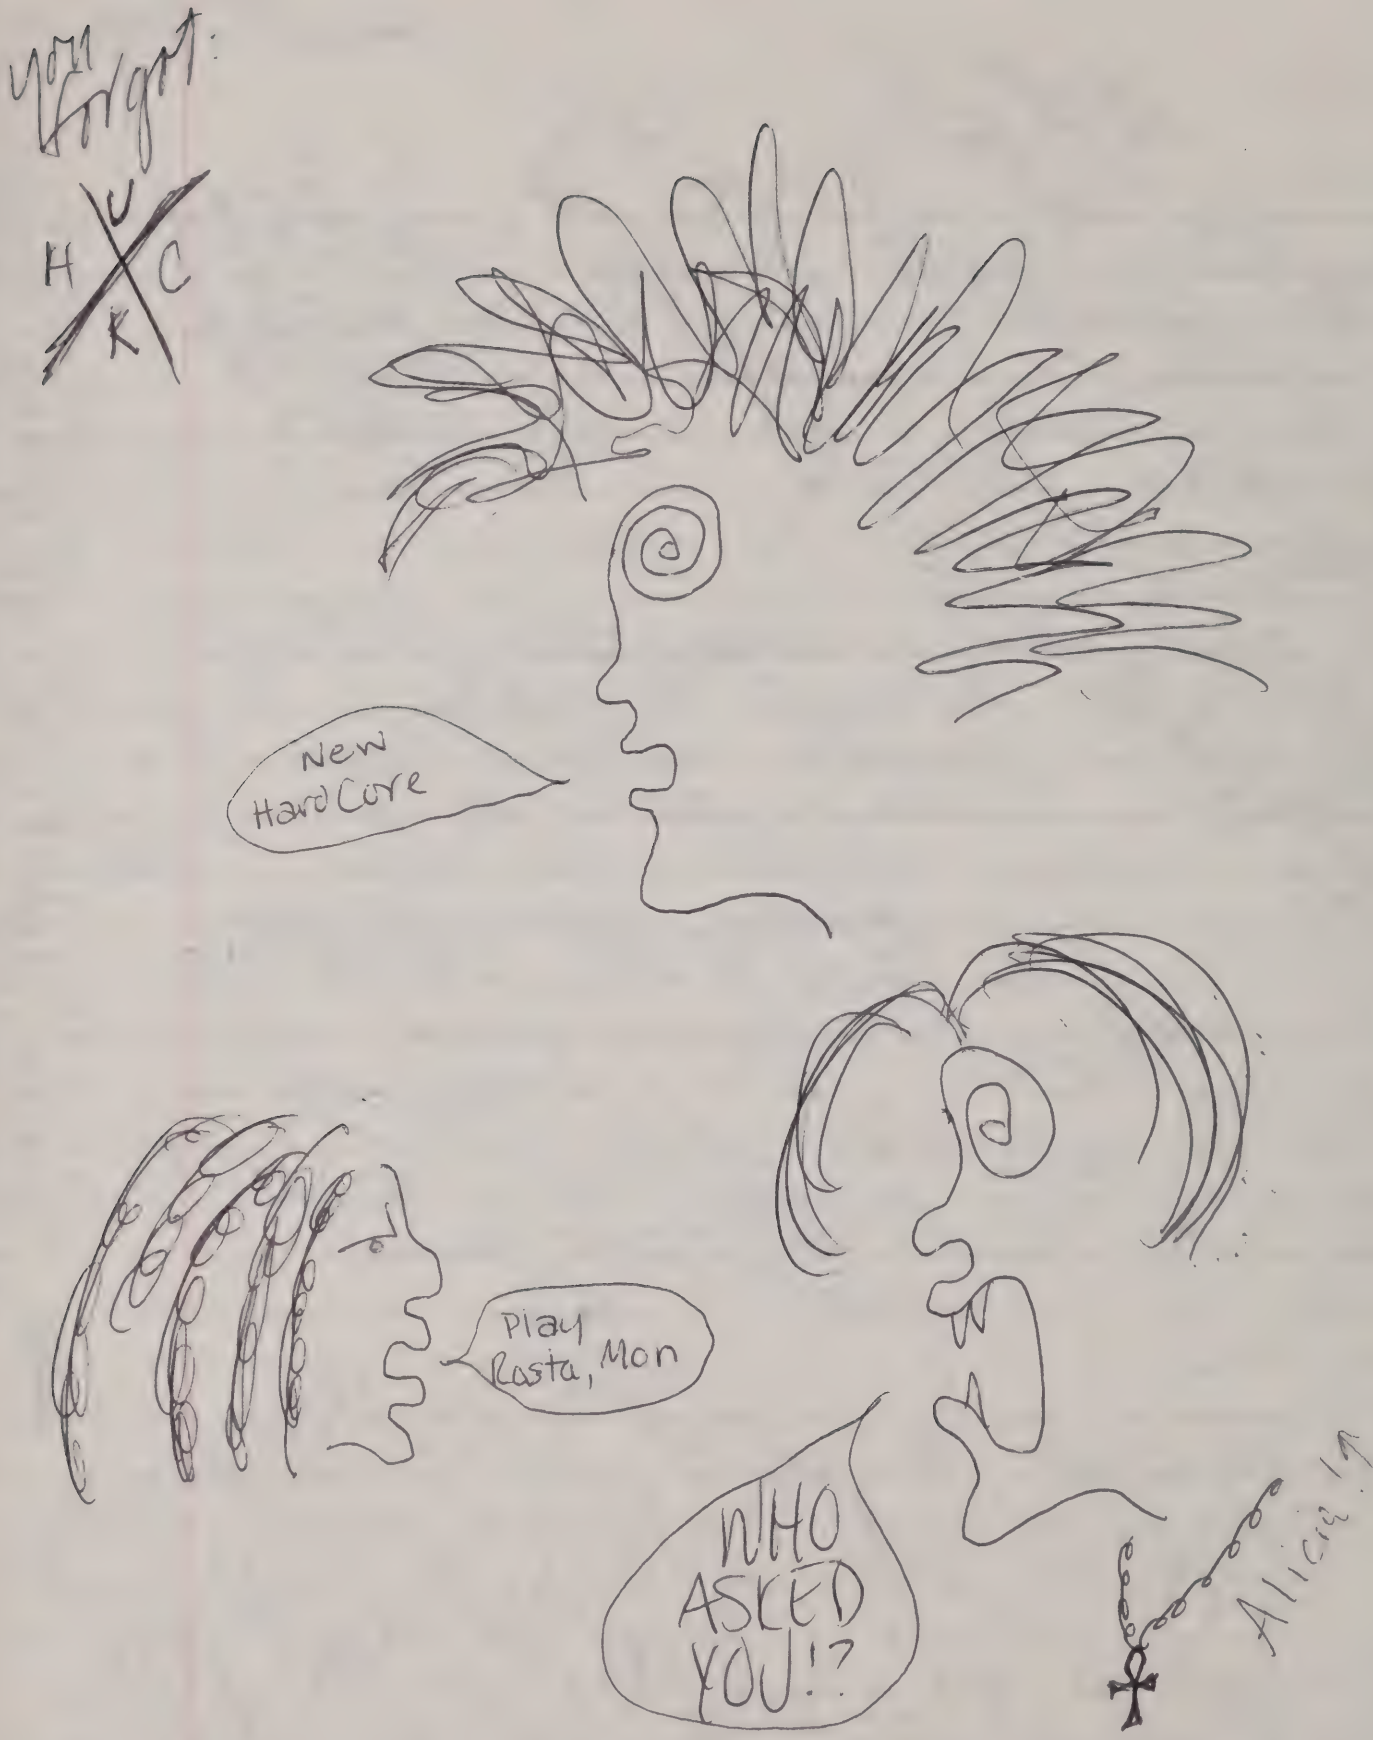
I DIDN'T KNOW that Security was the opposite of Campus?!?

opposite of Campus

Someone should deliver dinner to Classical D.J.'s — I'm hungry & have 14 to my name, so Wilbur is out tonight. Oh well — I need to loose weight anyhow!

PS — I'm really pissed off when people don't shut up for the shows & I have to run all over the WALL which is in the opposite direction of security which is where I am on a Classical Psyche!!!!

I'm very tired. I was up until 6:00 AM reading boring books. I'll probably be up until 4:00 or 5:00 AM tonight. I figure it'll be fun to fuck up my system now, then during finals I don't know why I wrote all that — all I really wanted to say is that the phone is fucked. ☺



Cindy – Was that your own "Less than Zero"? Or is it somewhere in the studio?

CH

Now here's a question FOR YOU!!!

follow these difficult direx:

① place this book directly under mic, perpendicular to the board

i.e.→ 
ok, ready?

② What the hell is this?!?

This f*cking hat album in the news room? It's been annoying me all year!!

Can you answer, boys, oops, I mean girls and girls ???

1. ~~yes~~ I can - It's the Marching bands album - I saw it placed there. Why???

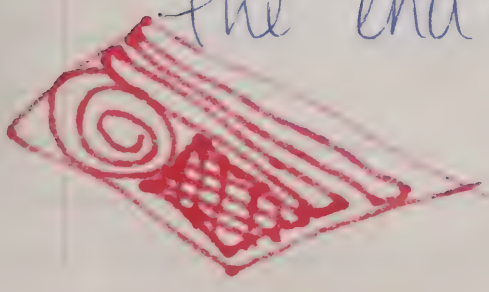
What are we doing for Jan term?

Going home!!
where things actually happen!!! Yes!

It's that wonderful jazz show I love to bitch about again. Serious question! What is the deal? No! one was on the air today! Come on!!!! This has to stop! I know SOMEONE is on the air between 2 a.m & 2 p.m!!!!!!!

Also: what do we do about the immature people who call while you're over the air & then complain that you "hang-up" on them?? It happens to me all of the time. And now one of those darling people is just being a plain idiot, calling every five mins. I am so glad that it is the end of the semester!!!!!



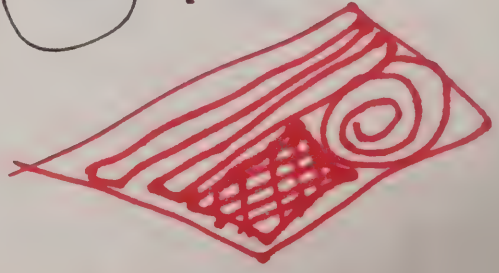
Ok, you want a reason to bitch? I've got one!

The compilation album "The Christmas Album" has been taken. How am I sore? Because I've looked everywhere. Now it's not my favorite album, but it's important when you want to play 2 hours of Christmas music. [redacted]. And it was a really slimey thing to do since the album benefits the [redacted] Special Olympics - by playing it we could have influenced others to buy it and help out this worthy cause!

YEAH! Slime bait! Grinch city!

BRING IT BACK NOW OR I'LL... I'LL

#!!#@©!



OK-

I have never complained before.... in fact I never write in this but I have to agree with. Taking "A very Special Christmas" for your ~~you~~ own listening enjoyment, right before christmas is really uncool.

I really wouldnt care if it was the house martins or something like that but this is a seasonal album and this is the last week of ~~Sept~~ Scheduled programming.

I also think it's kind of a drag that who-ever took it probably took it with the intent to tape it and that defeats the whole purpose of the album... If you tape it the proceeds of don't do diddy. If you buy the album your helping special olympics.

In other words whoever did this is a real shit-for-brains.

Hannah

Yeah, a REAL shit-for-brains

Love,

FRANKLY,

THE BEST AND REALLY THE ONLY CRITERIA FOR GETTING "A GOOD SLOT" NEXT SEMESTER SHOULD BE a) technical ability.
b). an air voice.
c). creativity in show.

not whether a person plays "new music."

GEEZ LOUISE, this isn't AM FM TOP FORTY WITH RIGID PLAYLISTS etc. - this is college radio - where, at least I've always understood to be, the djs are free to play anything and everything. If we use the "new music" = "good music" and therefore a "good radio slot" then theoretically this would mean that something like "The Flock of Sea Gulls Greatest Hits" would get air play whereas groups/people like:

- Dylan
- Stones
- Neil Young.

EVEN the BEATLES

WOULD BE RELEGATED TO SPECIAL PROGRAMMING AND THAT WOULD BE PRETTY DAMNED SAD!

I'm not saying that "new music doesn't have a place in our formatting .. but it should not be at the sacrifice of other stuff that isn't "new" and therefore good enough!

HEY JILL,

Of course scheduling depends on ability + responsibility. You obviously don't play A Flock of Seagulls (thank God) but you still got a 7-9 show. Don't be so defensive. We've not asking you to play shit and we've not prohibiting you from playing Neil Young. We're just asking that you give new music a chance, which you seem to do. And not all new music is A Flock of Seagulls. Creativity can be expressed in a mix of new and old.

Patty

lets talk more about Flock of Seagulls. In fact, lets all SCREAM it! Get it out of your system, since everyone seems to be obsessed w/ it!! Ready? 1..2..3..!

FLOCK OF SEAGULLS!

Hey Louder Than Bombs is back in the station now! If you listened to my very first show over at 6:00 last Tuesday morning you might have sensed I could have used a lot of songs from that album!! I was panick stricken when I realised it was NOT in the station (and I looked everywhere. Including Dance/Leisure!) I'm very glad that it has returned.

You all,
